Intermediate
9.2
- Vowel School 2018-2019
SSC
9.0

Skills

- Matlab programming, Java,Html,Python

Projects

- **Agro Robot: Soil and Plant Health Montoring Systetm**
The Agro Robot is an autonomous robotic system designed to monitor soil and plant health in agricultural fields. The system aims to provide farmers with real-time data on soil moisture, temperature, pH, and plant health, enabling them to make informed decisions on irrigation, fertilization, and pest control.
- **Mini Project: Footstep Power Generation With Rfid Mobile Charging system**
The project aims to harness the energy generated by footsteps and convert it into electrical energy to charge mobile devices. The system incorporates RFID technology for secure and convenient charging.
