Intermediate  
9.2

Vowel School

2018-2019

SSC  
9.0

## PROJECTS

**Agro Robot: Soil and Plant Health Monitoring System**

The Agro Robot is an autonomous robotic system designed to monitor soil and plant health in agricultural fields. The system aims to provide farmers with real-time data on soil moisture, temperature, pH, and plant health, enabling them to make informed decisions on irrigation, fertilization, and pest control.

**Mini Project: Footstep Power Generation With Rfid Mobile Charging system**

The project aims to harness the energy generated by footsteps and convert it into electrical energy to charge mobile devices. The system incorporates RFID technology for secure and convenient charging.
